August 2018

Dear Parent/Carer

We are very excited that your son/daughter has joined us at The Roundhill Academy and we want the next five years to be happy and fulfilling, ensuring that they reach their potential and are equipped with the skills, qualities and qualifications to take them into the next stages of their lives.

In the next four days your son/daughter will be involved in lessons that will introduce them to the ethos of the school and our expectations of them in their learning environment and the wider school community. These lessons will focus on expected conduct in lessons, taking responsibility for their own actions, aiming high to achieve, the meanings of courage, resilience, respect, integrity, as well as trying to understand about emotions. All these qualities will equip your child with the necessary tools to succeed in their learning and in life in general.

At the end of this week we will hold a graduation ceremony to celebrate the successes of those students who have shown these qualities consistently over the four days. For any students about whom we have a concern, they will be given an extra four weeks where they need to provide evidence, within lessons and around the school, in order for them to graduate. In this instance, you will be contacted by Mr Westwood (Head of Year 7) and invited into school so we can work together in supporting your child for a successful graduation.

Yours sincerely

James Tickle
